

# Against Mine Too: Rape-as-Politics Revisited

by Samuel Hux (July 2015)

Is eating a revolutionary or conservative act? That is, when you lunch or sup or break fast with another human being, what is its political dimension? When one shovels it into a generously open mouth with teeth exposed and tongue darting, or when one slips it passed purse-like tight lips. . . is the first an expression of the proud, defiant ostentation of the possessing classes and the second a sign of the social *ressentiment* of the seething dispossessed, or is the one the public disguise of the other?
