

American-MidEast Coalition for Trump Gives His Latest Speech High Marks

WASHINGTON DC – Members of the American-MidEast Coalition for Trump (AMCT) were greatly heartened by Donald J. Trump's speech of June 22.

While The Islamic State commits genocide, Hillary and the Clinton Global Initiative sip cocktails with the region's authoritarians. Donald Trump is right in calling Mrs. Clinton "possibly the most corrupt person to ever run for the office of the presidency" of the United States.

"In his speech, Mr. Trump identified the suffering of Christians in the Middle East. He is the only one seems to care and be willing to work on a solution," said David Lazar, Chairman of American Mesopotamian Organization.

Meanwhile the Middle East is being consumed by the death and destruction directly caused by Secretary Clinton's disastrous decisions. She supported the violent overthrow of Muammar Gaddafi while making no real provision for what would come afterward and thus, as Donald Trump said, the country is now in the hands of the "ISIS barbarians." ISIS has acquired advanced weaponry looted from Libyan stockpiles including [chemical weapons](#) which they have already used in Syria.

As Trump noted, Egypt had been governed by a friendly regime that honored its peace treaty with Israel. After forcing the dictator, Hosni Mubarak, to step down, Clinton and Obama decided to partner with the extremist Muslim Brotherhood (an organization the Administration described as "moderate") and brought it to power in Egypt, supplying it with cash, Abrams tanks and F-16 fighter jets. Subsequently, millions of Egyptians took to the streets and forced the oppressive US-

backed MB government to be overthrown by the military. Dr. Ashley Ansara, an American-Egyptian activist said, **“Mr. Trump articulated the danger of the Muslim Brotherhood to Egypt and the Arab world, while Mrs. Clinton worked with them as reformers.”**

Clinton and Obama policies made Iran the dominant Islamist power in the region. It is heading toward becoming a nuclear power. The Iranian government is one of the most oppressive on earth. In Iran, gays are routinely hung from cranes (death by slow strangulation). Activists estimate [4,000 gays have been executed](#) in this manner since the revolution. And in Iran women who have been raped are likely to be [stoned to death for adultery](#). Hossein Khorram, a Muslim Iranian American, Delegate to the Republican National Convention and a strong Mr. Trump supporter said, **“I was pleased to hear Mr. Trump acknowledge the destructive and offensive behavior the Iranian regime is displaying in the region.”**

Furthermore as Trump stated, “Hillary Clinton’s support for violent regime change in Syria has thrown the country into one of the bloodiest civil wars anyone has ever seen.” **The Syrian Centre for Policy Research [released in February 2016](#) estimated the death toll at 470,000, with 1.9m wounded. Refugees are estimated at 6.36 million displaced internally and more than 4 million abroad. In addition Syria has become a launching pad for Jihad attacks against the United States and Europe. “Mr Trump opened up to the Muslim people and he will be the one to coordinate with Arab leaders on eradicating ISIS and free the Syrian people,”** said Mirna Barq, President for Syrian American council. “It was encouraging to see Trump mention yesterday that ISIS is threatening millions of peaceful Muslims who just want to go about their lives, as well as other Syrians. 95% of ISIS’ victims in Syria actually have been Muslims, and the free Syrians have been fighting both ISIS and Assad. All the while Assad ignores fighting ISIS and sells them oil and his campaign against the Syrian people created the vacuum which

led to ISIS to begin with. The Syrian people need immediate action to eradicate ISIS, remove Assad, and free the Syrian people.”

“It’s been two years since President Barack Obama has said he’s going to defeat ISIL,” said Khalid Haider of the Yazidi Voice of Right. He continued, **“Perhaps the words are easy to pronounce, but the President is lacking in action. The indigenous people of Mesopotamia are in jeopardy because so far Obama’s administration has destroyed our hometowns while acting like he’s fighting ISIL. Yet all combined those air strikes haven’t degraded ISIL whatsoever. Therefore, and as an activist I do believe as everyone else all over the world believes, Mr. Donald Trump is our only hope to save whatever is left from our heritage and history. Vote for Trump, you’re voting for saving U. S. A as well as the world.”**
