

Assange, Clinton Lies and Libya

[Gateway Pundit](#):

Secretary of State Hillary Clinton knew that the [US was sending arms](#) from Libya to Syria **back in 2011**, a year before the Benghazi consulate attacks.

Hillary Clinton denied she knew about the weapons shipments during public testimony (under oath) in early 2013 after the Benghazi terrorist attack.

Senator **Rand Paul** [questioned Hillary Clinton](#) about this gun running program back in January 2013 during her testimony on the Benghazi terrorist attack.

You know, I'm old enough to remember when lying under oath was a serious crime. Hillary seems to do it constantly with no consequences whatever. Humm.
