

Australian Hizb Ut-Tahrir Scholar Mohammad Alwahwah: Qatar Is Going To Hell For Spending Muslims' Money On The World Cup Instead Of Financing Islamic Armies, Liberating Palestine

This is from [MEMRI](#).

Australian Hizb ut-Tahrir-affiliated Islamic scholar Mohammad Alwahwah said in a December 2, 2022 lecture in Sydney, Australia that on Judgement Day, Qatar will go to Hell because it has spent Muslim wealth on the World Cup instead of helping needy Muslims, financing Islamic armies, and liberating Palestine. He said that the da'wa at the World Cup does not justify the forbidden things that it entailed..

He also said that the Jews and Christians will never be happy with the Muslims until they abandon Islam, and

he claimed that the greatest number of people converted to

Islam as a result of Islamic “conquests and victories”. He explained that by waging these kinds of conquests, Muslims are “implementing the message of Islam” and bringing non-Muslim directly under Islamic rule. *I really don't fancy that, and neither would the good people of [Stoke on Trent](#).*

The video of the lecture was posted to the Hizb Media YouTube channel.

“When Allah gives you the victories, he gives you the conquests... you will see the people enter into Islam in droves and in abundance. And that has been the greatest source of converts in the past.

We are not just giving *da'wa* by speaking to people and presenting the message of Islam. We are now carrying the message of Islam. We are now implementing the message of Islam. We are going to their lands and presenting to them. The *futuh*, the conquests, where they were brought to live under Islamic rule, and then they see the blessings of Islam.

...imagine the celebrations when the ummah is actually victorious. When Al-Quds is liberated. When our lands are freed. When the khilafa is established.”

Yes, the submission when the alternative is death or slavery.
