

# Ayad Jamal Al-Din Explains It All To John Brennan

I first posted [this remarkable interview](#) with the Shi'a cleric (and undeclared freethinker) and former Iraqi MP Ayad Jamal Al-Din, after it appeared at the samaritan site of Memritv.org on October 20, 2014.

Now that John Brennan, the man most responsible for telling Obama what to do about Muslim terrorism, has yet again said something frighteningly idiotic – that the people who flock to the Islamic State have nothing to do with Islam, Islam should not be mentioned in the same breath with the Islamic State, these are merely psychopaths, and so on – it's time to repost Ayad Jamal Al-Din's response, while he was visiting Washington, to an interview on an Arab-language news network.
