

Baizuo

The Chinese take a different approach to the challenges of the present day. I just came upon this new word, which is definitely more fun to use than “SJW”. From [Urban Dictionary](#):

Baizuo (pronounced ‘bye-tswaw’) is a Chinese epithet [meaning](#) naive western educated person who advocated for peace and equality only to satisfy their own feeling of moral superiority. A baizuo only cares about topics such as immigration, minorities, LGBT and the environment; while being obsessed with political correctness [to the](#) extent that they import backwards Islamic values for the sake of multiculturalism.

The Chinese see the baizuo as [ignorant](#) and arrogant westerners who pity the rest of the world and think they are saviours.

My [school](#) is over-budget so they’re cutting STEM classes because the Gender-studies and African-studies departments put fliers up all over the school claiming it would be [racist](#)/sexist to [cut](#) their classes. Fucking baizuo.
