

# Crude And Stupid, Lutz Bachmann Out At PEGIDA

It will delight all those who think that PEGIDA, or any other group devoted to sending the alarm through every Middlesex (or German) village and farm, about what they call, correctly, the “Islamisation of Europe,” should be silenced, mocked, attacked, destroyed, to find out that Lutz Bachmann, its founder, is also an intolerable fool, and worse. He’s been forced to resign, but he’s done his damage, with his unhilarious Facebook picture of himself as Hitler (supposedly a joke, just like Prince Whatshisname with his Nazi uniform, but ‘tain’t funny, never ever funny McGee), and comments of the “scumbag” variety that show he is not *a la hauteur* of things, of anything at all. He enrages, especially because of how his idiocy will be exploited to damage what is a necessary uprising of many people, people who have nothing to do with the stupid and crude antics of Lutz Bachmann.
