

Deranging The Swamp Of Ignorance

by John M. Joyce

A lot of British people are very confused about the political situation in the U.S.A. so I thought I would explain things to them in simple terms.

But before I start to teach them the basic facts of American political life, and just for your interest, you Americans who might read this should know a thing or two about British politics.

First off let me tell you that there are many political parties in the U.K. but that there are only two Political Parties – the Terrors and Lie-bore.

The Terrors are currently in power but Lie-bore say they really won the last general election and their living prophet, called Gerny Combine who, until recently, led the Lie-bore Party, should be the Prim Monster. Regrettably he has been

replaced by Sir Careless Stormtrooper whose avowed intent is to have no Momentum in politics at all.

This offends the "Harvesters", Germy Combine's supporters (who only fly on planes that have one wing, the left one), who believe that they should have been given the Momentum to rule. They feel that they were cheated at the last general election, as I said, by not having Germy Combine elevated . . . damn it! I meant elected . . . to the office of Prim Monster. It's obvious to them that "the people" got it wrong again, as they always do (see Brexit).

Anyway, every so often the British people vote for Mummies-with-Parament called M.P.s whose primary function is to ignore, and seek to overturn, the wishes of "the people" because, as is well known, "the people" are always wrong. At the last election "the people" got it completely wrong and elected the Terrors.

That means that the Prim Monster became Boris Godunov, the first non-Rurikid Prim Monster and responsible for ushering in the Time of Troubles by using nineteen covins to infect everything he touches. He is ably assisted by the Pretty Petal (a.k.a. Patella goddess of the home office) and an ornamental garden plant called a Rich Old Sumac, which is an absolute Treasure and thrives anywhere.

Enough of that, I need to get on and explain American politics to the many Brits who are watching the U.S.A.'s election processes with sadness and alarm but above all else, confusion
