

Don't frustrate Brexit, Davis warns MPs

[Up-sum of David Davis](#)' Commons statement:

- *Article 50 legislation within days*
- *Bill will be straightfoward, short and simple as possible*
- *Timetable to trigger by March still stands*

Or to put it another way, Britain will be leaving the European Union...

And

[this comment caught my eye.](#) Miller is a figurehead, a pawn, disposable. She will be found face down in the gold paint eventually – oops I may have muddled my Bond films there.

I don't think she needs 'bankrolling' she has her own means and hubby can also pick up the tab too.

I do believe that, Soros is the Machiavelli-an manipulator – the likes of Branson is simply too thick – behind much of this remoaniac malignancy.

Soros, he will attempt to move heaven and earth to bring about making Britain return to heel. For we know it, the game is all about the deconstruction, funding the destruction of the nation state.

Moreover and until June 23 and Nov 8th 2016... For until these two momentous dates, Georg Soros like the malicious old cunt he is, was orchestrating, composing, his great scheme of OWG and Internationalism on amphetamines was going along just thank you very nicely.

Gina Miller is just the perfectly chosen frontispiece of

UK4EUforevah'..., foreign, melanistically pigmented sort of British and hey a gal too – that was clever, very, very clever and has the imprimatur of [and Berlin] Soros all over it, mind you it helps greatly if you are first name terms with the courtknow what I mean?

What I would like to see is, some very determined attempt by the Trump administration to dump from a great height on Soros, to try to prise him out of his NYC snakes nest – would be a very good start, sequestration of funds would be an excellent and nuanced move.

I do hope President Trump will be doing somerthing about the nasty Mr Soros. He makes Ernst Blofeld look positively charming.
