

Greek police say they dismantled 'terrorist network'

From [Al Arabia](#) English edition

Greek authorities said Tuesday they dismantled a "terrorist" network and reported the arrest of two Pakistanis accused of planning to target Israelis in Athens.

Police said the network had "already chosen the target of the attack" and were planning how to carry it out.

Greek police sources told AFP that officers had arrested two Pakistanis, aged 27 and 29, of Iranian origin, who were planning attacks on Israelis in central Athens.
