

Israel: Beduin Muslim Women Charged with Joining Islamic State

From time to time one hears the opinion expressed, whether by Israeli Jews or by other varieties of non-Muslim external to Israel, that the Beduin Arabs within Israel – who are virtually 100 % Muslim – are somehow different from other kinds of Muslim, less dangerous, less likely to Go Jihad than other kinds of Arab – or non-Arab – Muslim. That this is merely wishful thinking is illustrated pretty clearly by this news report that appeared in ‘Israel National News’ on 8 January.

<http://www.israelnationalnews.com/News/News.aspx/240396>

‘Negev Beduin Women Charged with Joining ISIS’.

‘Shabak (Israel Security Agency) and Israel Police have publicized the arrests of two Bedouin young women during the month of December.

*Two young Muslim women. And note: **women**. Muslim women can and do Go Jihad, just like the men. – CM*

‘Rahma al-Assad and Tasnin al-Assad, both 19, are Israeli citizens (Muslims holding Israeli passports – CM), residents of the Negev Bedouin town of Lakiya.

The Bedouin represent an expanding, increasingly aggressive and dangerous Fifth Column within the infidel State of Israel.

They practise polygyny and they constantly raid and encroach upon Jewish Israeli farmers, stealing livestock and equipment and generally causing damage and distress. The authorities in Israel would do well to be much more resolute about enforcing Israeli law upon Beduin Muslim lawbreakers. – CM

'They were arrested on suspicion of forbidden ties with terrorists identified with ISIS.

'During the interrogation, the two admitted to planning to carry out a terror attack against Jews from within Israel, and examined the various options available to them. In addition they connected with ISIS terrorists abroad, and received instructions on how to prepare for the attack.

'The interrogation also revealed that Rahma and Tasnin planned to travel abroad themselves in order to join the fighting. They also publicized material praising ISIS, as well as material inciting to terror attacks against Jews.

'Their arrest is expected to be extended and an indictment filed on Monday at the Be'er Sheva District Court."

If the Israelis had a full and complete understanding of the jihad waged from within, then creatures such as this, with their extended families, would be stripped of Israeli citizenship – for which, no doubt, they have nothing but contempt, viewing and using it only as a temporary and tactical convenience – and dropped off in Jihad Armed Camp Gaza; and informed that if they attempted to cross the border back into Israel they would be treated as the enemy combatants that they are, and shot on sight. – CM

In 'Times of Israel', Judah Ari Gross reporting, on 8 January.

<https://www.timesofisrael.com/2-bedouin-women-19-charged-with-joining-is-plotting-new-years-terror-attack/>

'Two Bedouin women, 19, charged with joining IS, plotting New Year's terror attack.'

'Shin Bet arrests pair from southern Israel, 24 year old East Jerusalem man also indicted in connection with plot'.

That should be, "24 year old Jerusalem-resident Muslim man also indicted..". – CM

'Two female Bedouin Israeli teenagers were indicted on Monday on charges that they were planning to carry out a New Year's Eve attack on behalf of the Islamic State terrorist group, the Shin Bet security service said.

'A 24 year old **East Jerusalem man** (*Jerusalem-resident Arab Muslim* – CM), Ahmad Abu Ramila, was also charged on Monday of lesser counts in connection with the plot.

'Rahma al-Assad and Tasnin al-Assad, both of them 19, from the **Bedouin** (*sic: 'Bedouin Arab Muslim'* – CM) town of Lakiya in southern Israel, were charged with a number of counts, including planning a deadly terror attack, contacting a foreign agent, and joining an illegal organisation.

'Abu Ramila was charged with contacting a foreign agent and conspiracy to commit a crime, and with obstruction of justice and destroying evidence for deleting his conversations with the two women.

According to the Shin Bet, the two teens made contact with members of the Islamic State terrorist group sometime last year.

'During their interrogations, the teenagers said the Islamic State members, from outside Israel, told them to "carry out terror attacks against Jews in the State of Israel", the Shin Bet said in a statement.

'They were even instructed by some of them to carry out preparatory missions ahead of the attack", the security service said.

'According to the charge sheet, this included **visiting Beersheba's Ben Gurion University campus in order to determine if they would be able to bring in a suitcase full of explosives for a bombing attack there. They determined they could not.**

One wonders how many mohammedan mobsters are or have been similarly sussing out infidel school and university campuses across the infidel world.. .and whether they are reaching similar conclusions to those reached by this fine pair of murder-minded Muslimas.. or not. Israeli security provided for such places is – I would hazard the guess – rather more thorough, strict and comprehensive than provisions made for the average American, Australian or Canadian educational establishment. – CM

‘They also refused to carry out an attack at the Beersheba bus station as many Muslims travel through it, according to the indictment.

‘This fall, Rahma al-Assad contacted Abu Ramila – who planned on marrying Tasnin al-Assad – to see if he would help carry out a terrorist attack during New Year’s Eve celebrations.

‘According to the indictment, Abu Ramila had also been in contact with Islamic State members. He refused to carry out the attack, but Rahma insisted.

“The female of the species is more deadly than the male... “. Or so said Rudyard Kipling. – CM

‘Tasnin allegedly tried to help Abu Ramila get out of carrying out the attack, urging him to tell Rahma that he would only commit a terror attack if she got him a gun, as Tasnin knew that Rahma would not be able to do so.

One wonders how much this is based on what all three said in their – separate – interrogations and how much is based on what was heard by Israeli security when eavesdropping on our three mohammedan mobsters prior to the arrests. – CM

‘The pair also shared Islamic State publications on the internet and shared “inciting content that called for terror attacks against Jews and Israel”, the Shin Bet said.

*Question: what proportion of Muslims do **not** engage at some*

time or other, in some form of approval or sharing or production of content that incites to murderous aggressions against Jews and/ or against the Jewish state of Israel? – CM

'It was not clear if the two teenagers are related.

'According to the charges against them, Abu Ramila and the two women planned to eventually leave Israel and join the Islamic State group's affiliate in Egypt's Sinai peninsula.

Had Israel never been pressured into giving the Sinai – won from Egypt fair and square in defensive warfare – back to suffused-with-Islam Egypt, the security situation – both for Israel and, ironically enough, for Egypt – in the Sinai would be far, far better. Because the Israelis would have been far more effective at keeping the lid on jihad there. And if, upon seizing and keeping the Sinai, the Israelis had been able – had indeed been encouraged – to expel from it – and also from what would become jihad armed camp Gaza – every last mohammedan, into Egypt and Islamic Jordan, during the heat of warfare, then the security situation would be better still. – CM

The two women were arrested on December 18 and Abu Ramila was arrested on December 26, but a gag order was placed on the case, preventing publication.'

'That order was removed on Monday, as indictments were filed against the three of them in Beersheba District Court.'

The mohammedans resident within Israel, whether they be Beduin Arab, or other-Arab, or anything else, represent a Fifth Column; an Enemy Within. Got Muslims? Got Jihad. There is no sub-group of Muslims, of whatever ethnicity, that should be regarded as somehow less dangerous than others, less likely to Go Jihad. – CM
