

Jake Bilardi And The Death Cult For Which He Died

[Here.](#)

For the jake-bilardis of this world – and there are many more to come – your own private depression can end, you can give meaning to your liife and end your misery, by becoming a True Believer in Islam. If you are lonely, you suddenly have a Community of Bruvvers, who claim to admire and love you, especially if you volunteer to fight with them, to become a suicide bomber. If confused, you now have a Complete Explanation of the Universe, for the Qur'an contains all ye know and all ye need to know. If you have lacked discipline in your messy and shapeless life, you now have a Total Regulation of Life, and if you have the slightest question about whether or not something is Halal or Haram, there are Muslim websites, with imams standing by, to answer every question.

Soft-cheeked practically pre-pubertal Jake Bilardi has apparently blown himself up. It gave his life Meaning. And it is for us, the living (just like Obama, we can all try, and embarrassingly fail, to sound like Lincoln)to figure out the signficance of this jake-bilardi, and hundreds of thousands of other equally miserable creatures all over the West, who now choose Islam as their Simple Solution.
