

Muslim yob who threatened to shoot and stab 'English pigs' at the Royal Shakespeare Theatre is spared jail

From the [Jonathan Jennings](#). A "vile" racist who claimed Hitler was born "100 years too soon" has been jailed for 16 months. Jennings .. claimed Muslims should be "forcibly sterilised" and "sentenced to death". Sentencing Jennings, Judge Walters said his comments were "vile, venomous and words which would rightly outrage any decent human being".

[Barbara Fielding-Morriss](#), 79, was convicted of three counts of stirring up racial hatred at Stoke-on-Trent Crown Court in June 2018. She was jailed for 12 months. In four blogs between September 2016 and September 2017, she included statements about how asylum-seeking Jews were like termites and made comments about mentally disabled migrant children, jurors were told. She also described Adolf Hitler as a good man and wished Great Britain to be "white only".

Recorder Taylor told Fielding-Morriss: "The fact you were standing in a general election as a parliamentary candidate aggravates this case, because you were putting views forward to an electorate." As she was led away, Fielding-Morriss, told the judge he had "completely ignored freedom of speech laws". *She sounds most unpleasant (British understatement here) but I don't think anybody feared for their immediate life at her hands.*

If the generalised racist insults and non specific threats above merited the sentences they got, then surely Ali should have also received a custodial sentence (and don't get me started on looking at his eligibility for deportation) This

may be a case for concerned members of the public to write to the
