

News Flash: Lindsay Lohan Is “Exploring” Islam

Fox News reported last week that Lindsay Lohan the perennially bad girl of Hollywood is infatuated with Islam. Lindsay, who is famous for being famous, now wants to flirt with converting to Islam. Lindsay, I don't know how to say this to you tactfully, but this is a really, really, really dumb idea, even for you.

Ms. Lohan has appeared before the Judge about 20 times over the last eight years mainly on alcohol and drug offenses. She has almost single handedly kept the posh Hollywood treatment centers in business. She has been dried out more times than a bathroom wash cloth.

Have you, Lindsay, in your vast reading of the Koran ever noticed the penalty for drinking alcohol ?

I think it is a 100 lashes across your bare back for the first offense. You will need a burkha just to cover the scars and welts across your beautiful back and shoulders. But Islam does have a permanent cure for alcoholism if you back slide a second time. The second time you are caught drinking alcohol becomes a capital offense. You will be killed. My guess is either through stoning or decapitation. Neither are pleasurable alternatives.

Let's assume you do convert to Islam and then discover the error of your ways. There is literally no exit from Islam. Have you “explored” the penalty for leaving Islam? All the schools of Islamic jurisprudence demand the death penalty for the apostate. I am sure with your high profile Jihadis would be lined up around the block to kill the famous Lindsay Lohan. We killed bin Laden, but ISIS would kill you. What terror act could top the spectacular Sharia mandated killing of Lindsay Lohan ?

Lindsay, quit shilling for Islam ! All of you vapid Hollywood types are creating a fantasy Islam, one that has never existed and will never exist in the future. Stop being a useful idiot for Islam.

Hint: While you are exercising your formidable mental powers study the life of Mohammed.

I sincerely fear for your continued existence upon the planet if you do become a Muslim. That decision is irrevocable. Wise up, sweetie, before it is too late.
