

# Peace And Conflict Studies At UNC/Greensboro

[Here.](#)

As Obama and Kerry and everyone else in this Administration likes to say, it's all about Getting To Yes. And think of all that needs to be done in the areas of "restorative justice and conflict transformation, civic engagement, facilitation, and other processes." And please take note that UNCG "is classified by the Carnegie Foundation as a Research University with High Research Activity and a Community-Engaged Institution. UNCG has one of the most ethnically and racially diverse student populations (37% of students) of any campus in the North Carolina system."

What could be better?
