

The Delusional Sycophants of the FBI Retired Agents' Association

by David J. Baldovin

An April 11, 2023 written report by the Executive Director of the Society of Former Special Agents of the FBI (SOFSA), Nancy Savage, reflected that on that date, several Society Chapter Chairs from around the country visited the FBI Academy at Quantico, Virginia. Savage and SOFSA President Dennis Lormel were also present. They attended a New Agents Graduating class and also met with FBI Director Christopher Wray.

Wray claimed that much of what was being written about the Bureau were opinions and not facts. He asserted that “the FBI brand is strong around the country,” that it is important to do the job with honesty and integrity, and “acknowledged that the FBI receives political fallout from Congress at times.”

The takeaway from the written report of the event was that all is A-OK with the FBI. This is, however, contrary to fact. There were evidently no hard questions posed to Wray from this

“diverse” group. It was not evident that any of these subject were discussed: FBI whistleblowers; the Crossfire Hurricane corruption hoax; the Department of Justice (DOJ) Office of Inspector General (OIG) report; the Democrat Party/DOJ/FBI Reichstag Fire-style railroading of patriotic American citizens known as the J6 “insurrection”; the FBI collusion with Twitter to affect a Presidential election; the successful social engineering of the Bureau; or anything concerning Hunter Biden. Are we, then, to conclude that SOFSA is all in with the FBI being used as the enforcement arm of an anti-American political party?

The FBI is the “tip of the spear,” as one might conclude [here](#), for government wide corruption. An apparently oblivious or delusional FBI Director meets with apparently equally oblivious or delusional retired agents and delivers the usual pabulum to these gullible agents, who willingly lapped it up. But hey, they each received a Training Division Challenge Coin.

The SOFSA website states [here](#) that the organization was founded in 1937 to “preserve the mutuality of interests of the Agents, the memories of pleasures enjoyed and adversities shared. It was formed as a fraternal, educational, and community minded organization composed of former FBI Special Agents who had served with fidelity, bravery, and integrity in the defense of America.” They would also like you to know that they are “inclusive.” Forgive me if I suspect that the word “*inclusive*” was not in the original founding document(s).

It became evident to me over the last ten years or so that many of my retired colleagues took an oath to an agency instead of to the U. S. Constitution. The motto “protect the Bureau at all costs” is apparently alive and well.

Except for a handful of retired agents, no organization of FBI agents has come out in support of the recent FBI whistleblowers, three of whom have testified before Congress.

SOFSA is crickets, which tells me that they apparently are O.K. with the Stasi/KGB tactics that the Bureau is employing against them, as is highlighted [here](#).

Yet further evidence has surfaced of the FBI targeting Catholics, as reported [here](#). Communism and other evil forces target religion. "Satan will deceive nations; he will viciously persecute believers." [Here](#) is an article published at the New English Review, in which I allege that Communism has indeed affected and influenced the FBI.

More evidence of subversion can be found [here](#) and [here](#). These Bureau agents are obviously joining in solidarity with Communism, a Communist cop killer, the Defund the Police effort, and jihadis, including the kidnapers of one of their own. I set forth the following to a separate group of retired agents last year to make the aforementioned point:

1. Black Lives Matter (BLM) has Chinese Communist Party (CCP) ties. Its leaders are self-professed Marxists. Co-founder Patrisse Cullors has praised cop killer Joanne Chesimard, aka Assata Shakur, of Black Liberation Army (BLA) 1970's fame. Being Marxists, they are behind the Defund the Police effort.
2. The [Hamas-linked](#) Council on American-Islamic Relations (CAIR) is an unindicted co-conspirator in the Holy Land Foundation FBI case, and is an outgrowth of the Muslim Brotherhood, a [self-proclaimed enemy of Western civilization](#) . CAIR stands with BLM. " [Black Lives Matter is our campaign](#) ."
3. In 2015, the Iranian mullahs voiced support for BLM to Mandela Barnes, Democrat candidate for U. S. Senate in Wisconsin. This would be the same regime that is suspected of the kidnapping of former FBI Agent Robert Levinson.

Likewise, the FBI Agents Association (FBIAA), an organization of active-duty agents, of which incidentally I was once a

Chapter Chair, reportedly rewarded the agents \$100.00 each for their alleged "professional judgement."

[Here](#) and [here](#) is more of that strong FBI brand that Wray must be talking about, and below is the same FBI executive, then a Special Agent in Charge (SAC), aiding and abetting jihadis and jihad sympathizers.

Apparently SOFSA is A-OK with all of this, too?

I recall as a young agent reading several items that circulated among the agent ranks comparing the Bureau to the KGB. I recall them being tongue-in-cheek write-ups; at least that is the way I took them. Maybe the FBI agent author(s) knew more than I and others had ever imagined. And just maybe I was delusional about what I thought the FBI was or was supposed to be.

After that April meeting with Wray, I feel confident that there will be a smiling photograph of the attendees with Wray in their monthly publication, the Grapevine. Why not? After all, James Comey, an [admitted Communist](#), had his smiling picture on the cover after he was rightly fired by Donald Trump.

A Max Frisch play entitled *The Firebugs (Herr Biedermann und die Brandstifter)* [here](#), is about arsonists who disguise themselves as traveling salesmen, gain entry to homes from unsuspecting homeowners, and proceed to burn the houses down. Biedermann reads about them in a local paper, and just then his doorbell rings; two traveling salesmen are at his door asking if they can spend the night. He has just read about the ploy, but allows them in anyway, and gives them a place to stay in his attic. Of course, they proceed to set fire to his attic and the whole town burns down. The evidence was right there staring Biedermann in the face, yet he failed to see it.

Both the FBI's attic and SOFSA's attics are on fire, but they

apparently choose to look the other way and ignore the flames.

Does the “enemy within” now include by their silence the FBI retired Agents Association? Maybe Lormel will consider this another one of those “unfounded and reckless” attacks on the FBI?
