

# **The Great Reset and the Struggle for Liberty: Unraveling the Global Agenda by Michael Rectenwald**

New English Review Press is pleased to announce the publication of our forty-seventh title: [\*The Great Reset and the Struggle for Liberty: Unraveling the Global Agenda\*](#) by Michael Rectenwald.

**A masterful work from one of our time's  
most courageous dissident voices.**

**— Lee Smith**

*The Great Reset and the Struggle for Liberty: Unraveling the Global Agenda* is the definitive treatment of the Great Reset. In a scholarly examination, Rectenwald treats the various components of the Great Reset, including the economic system it establishes, the deep history of the World Economic Forum (WEF), the population control “ethics” of the WEF and related globalist organizations, climate change catastrophism, the technologies of the Fourth Industrial Revolution (including transhumanism), and the question of conspiracy theory.

Rectenwald ends with a nine-point plan for stopping the Great Reset in its tracks, as part of what he calls the Grand Refusal. Far from a conspiratorial rant, *The Great Reset and the Struggle for Liberty* is a thoroughly sourced account that lays bare the premises and implications of the Great Reset project.

***Advance Praise for The Great Reset and the Struggle for Liberty***

“Michael Rectenwald’s *The Great Reset and the Struggle for Liberty* is a masterful and timely work of intellectual history from one of our time’s most courageous dissident voices. With extensive research in various disciplines – from European history and sociology to American finance, and from AI to climate science – Rectenwald gives us a sweeping and detailed account of the false prophets of an anti-human movement threatening to engulf America and other Western democracies. This tour-de-force is essential reading for those engaged in the ongoing struggle to preserve man’s freedom and future against totalitarianism – and a lasting testament of hope, faith, and love for the generations to come.”

– **Lee Smith**, author of *The Permanent Coup* and *The Plot Against the President*, host of *The Epoch Times’ Over the Target*.

“When you first hear what the world’s elites are up to, you think: this can’t be true. Unfortunately, dear reader, it is, and we do ourselves no favors by pretending otherwise. In fact, as Michael Rectenwald shows us, their current program didn’t emerge just a year or two ago but is instead the culmination of a century-long effort against the liberties of the people. You’ll see how their current obsessions – woke ideology, “climate change,” vaccine passports, and so on – combine to solidify their dominance. This book lays out, in their own words, their plans and intentions, and what we can do to stop them.”

– **Tom Woods**, senior fellow of the Mises Institute and host of *The Tom Woods Show*
