

The Iran Deal: What You Need to Know and Aren't Being Told

by Joseph S. Spoerl (August 2015)

Iran and the negotiations surrounding its nuclear program are in the news a lot lately, but much of the reporting remains quite superficial, missing several important aspects of this issue. Two matters especially receive little or no attention, even from the most respected American news outlets. These are the role of Germany and the role of ideology. Both, it turns out, are crucial for assessing the wisdom of the Obama administration's Iran policy. [_more>>>](#)
