

The Mad Dogs of ISIS

Two days ago, Paris, the City of Light, was attacked by the mad dogs of ISIS. In a carefully planned assault on multiple defenseless targets these hell hounds killed 127 innocent people and wounded 352 others. About 80 of these were critically wounded and some of these may yet die of their wounds and add to the growing death toll.

We may be next. James Comey, the Director of the FBI, tells us his agents are right now watching over 1,000 ISIS members right here in the United States. And furthermore, Mr. Comey, states these ISIS mad dogs are to be found in all 50 states. There are so many the FBI cannot adequately watch them all.

There is a 99% certainty ISIS will launch attacks against the U.S. homeland involving soft targets. Think if ISIS targeted our schools. Our precious children would be killed, raped and beheaded. Another easy target would be malls . How would you react if ISIS targeted Turtle Creek Mall plus other malls around the state. Or what if you were attending church on Sunday morning and armed gunmen broke into your sanctuary screaming Allahu Akbar while killing scores of infidels. What would you and your family do ?

Make no mistake about it, ISIS wants to kill as many Americans as possible. Right now vast numbers of our citizens are asleep. We are enabling these mad dogs to strike us at will. Paris is the first of many cities to be hit. Will Memphis, or Little Rock or Jonesboro be next ?

If ISIS is in all 50 states that means ISIS is in Arkansas, Mississippi and Tennessee. We may not think we are at war with ISIS, but ISIS teaches its rabid dogs that they are at war with us.
