

The Not-So-Slow Jihadists Of The Palestinian Authority Will Be Made To Pay

[The kind of decision](#) – the only kind – that will stop state- or quasi-state- or pretend-state- terrorism.

And if the State Department tries to block it, as it did with the decision the Teheran embassy hostages had counted on, then let Congress de-fund the State Department, by the exact amount that it blocks being paid, or demanded of, the “Palestinian” Authority – that is, about \$650 million. And as a codicil to the collective will being done through that court in New York, Congress should also halt that long-running American and European aid, so many tens of billions transferred from non-Muslim taxpayers to Muslims, that has for so long kept the “Palestinian” cause – the Jihad against Israel – in murderous business.

A good day.
