

The Two-Part Democratic Strategy

By Carl Nelson

Part One: It's not about the kid. If you whip the public up with enough fear-mongering you'll generate lone gunmen. That's part one of the Democratic playbook.

Part Two: Part two is that you provide the opponents with negligent protection. Then it appears as if it were some crazy who shot them, rather than it was the Democrats who left them out there exposed, to die. All attention is then focused down the rabbit hole of some crazy non-entity's life.

The Democratic playbook:

- 1) Rile your followers with unrelenting hate-mongering of the opposition.
- 2) Provide your opposition with negligent security.
- 3) Oops! Aren't attempted and/or successful assassinations awful!
- 4) Investigate the incident thoroughly with your (captured) FBI.
