

# Transgender Violence

by Armando Simón

In case you were not aware of it, November [20](#) was Transgender [Day](#) of Remembrance, when we were supposed to, for reasons unknown, collectively mourn the 26 transgenders that were killed for reasons unknown by persons unknown. Unfortunately for this image, an incident occurred around the same time that derailed the narrative: a transgender in Illinois, admitting to be a pedophile, gave out [threats](#) to kill children and [rape](#) girls. His main [hatred](#) was against Christians and [blacks](#).

Woops.

Supposedly [there](#) is an “epidemic of violence against [trans](#) people.” Even [being](#) shown the cover of a book has been deemed to cause “irreversible damage” to those poor souls. In fact,

using the [wrong](#) pronouns is an act of violence towards transgenders, which should be reciprocated with [real](#) violence. [ABC](#) claimed that [Texas](#) was practicing “genocide” for not allowing three-year-old children to be sexually mutilated.

Canada is experiencing the same [farce](#).

Nowadays, each [calendar](#) day seems to be reserved for a member(s) of the [Oppression Olympics](#), either to celebrate an occasion, or bemoan supposed tragedies (this is similar to the old Catholic calendar where religious events and saints were marked off for each day of the year). We have even been told that criticism or [jokes](#) about transgenders automatically results in violence, something that has never been proven, but is endlessly repeated simply in order to impose [censorship](#).

We have seen that there are many similar characteristics of the conglomerate leftist movements that overshadow society these days: lies, propaganda, persecution of dissent, censorship, projection. And, of course, posing as [being](#) “victimized” as a [rape victim](#), a [victim](#) of [Islamophobia](#), a [victim](#) of [racism](#), yada, yada, yada, while simultaneously appearing as benevolent and inoffensive.

However, the fact of the matter it is the transgender lunatics who have carried out a number of violent assaults on others, some of them—sexual—and to deny these incidents and cloak transgenders as innocent, inoffensive, helpless victims is simply a lie. Nonetheless, leftists will deny this, so I will give facts—and if the list is lengthy, that is exactly my point:

—Preceded by [leftists](#) calling for a “Trans Day of Vengeance,” a transgender murdered [three](#) children and three adults in a Nashville Christian school (CBS banned the word “transgender” from broadcasts). Many transgenders have armed themselves to the teeth and sworn death towards Christians, a call for violence that must [warm](#) many liberals’ [hearts](#). In fact, some

[liberals](#) blamed the victims. The [Biden](#) Administration appeared to support this. The transgender's [manifesto](#) full of hatred for Christians and whites and wanting to kill as many people as possible was suppressed by local authorities for months.

–In [Aberdeen](#), a transgender killed three and wounded three before killing itself.

–In [Colorado Springs](#), a [Communist](#) transgender was arrested before it was able to carry out a plan to carry out mass shooting in [three](#) schools.

–In [Colorado](#), a transgender killed five people and injured 18 others. The attack took place in a gay club.

–In Vancouver, a man protesting at a “Trans Day of Visibility” was accosted by the participants. When he objected to the police they did nothing, with them making snarky comments. This lack of [police](#) protection for people who are not leftists has also happened in at least another liberal-run city, Portland.

–In [San Francisco](#), swimming star Riley Gaines was repeatedly assaulted by transgenders for opposing men who pretend to be women in swim competitions. Such competitions have resulted in the men stealing the glory and rewards by outswimming real women.

–A [video game](#) was released wherein the player gets to be a transgender who goes around murdering Christians and (the miniscule number of ) feminists who oppose the transgender mania (which is similar to a previous [mania](#)).

–In [Australia](#), a transgender serial killer was put in prison.

–In a [San Francisco](#) university, a transgender attacked the display of TPUSA. The conservative students, as usual, did nothing to physically prevent it, or retaliate, demonstrating that they, too, lacked cojones.

–In [Florida](#), a transgender teacher was allowed to remain at his job for weeks after stating he was thinking of shooting children. He was finally removed.

–In [Bellevue](#), a transgender vandalized a Catholic Church. Though caught, he faced no jail time, a contrast to the treatment meted out to people who pray near abortion clinics.

–In [Auckland](#), thanks to media mendacity fomenting hatred against her, a woman who advocates for the safety of women was attacked by transgenders and other activists and the event, Let Women Speak was shut down. No feminists defending her, or the event, could be found and none said anything about it afterwards.

–A [transgender](#) who identifies as who identifies as a “poly trans lesbian” (whatever that means) has threatened conservatives and Christians on TikTok. It did say something that is very true: “I do not fear Christians. I do not fear conservatives. I do not fear Evangelicals and I do not fear Republicans. They just talk a big game. That’s all they do.” How true. How true.

–At a [Riverside](#) school, a hulking transgender exposed his gonads to girls and spit on them, [then](#) proceeded to beat up one of them.

–In [Philadelphia](#), a BLM supporter and transgender shot [seven](#) people.

–In [London](#), an ex-convict transgender called for violence against women who reject transgender encroachment. Calls for protection for women [from](#) transgender violence have [been](#) put out.

–A schoolgirl was [attacked](#) from behind by a transgender while other students gleefully recorded it.

–A scientific conference of the U.S. Professional Association

for Transgender Health ([USPATH](#)) removed a scientist dissenting from the transgender propaganda because of the threat of violence.

–Somewhat relevant, is the indirect violence by [men](#) who pretend to be women and are mediocre in [sports](#) participating in women's [sports](#), thereby robbing women of fame, money, status, glory, scholarships, and erasing previous [records](#). In taking part in these sports, they have accidentally [hurt](#) real women who were in the game. Whether due to [fear](#) of injury, or as an overall protest against the [travesty](#), a number of women have [refused](#) to compete against the men.

So, in short, far from transgenders being helpless and inoffensive victims, we see that in reality many are bullies, violent, hate filled, and some are even mass murderers. This does not mean that neither the leftists nor the media hivemind will stop repeating their mantra. After all, it is well known that repetition of anything sticks.

We have seen this truth in the past few years put out by the media hivemind on a number of subjects.

Armando Simón is a retired psychologist, author of [Fables from the Americas](#) and [The Book of Many Books](#).
