

Usaama Rahim Of Roslindale, Massachusetts

[Here.](#)

His brother, an imam living in California, has publicly claimed that his brother Usaama was shot in the back three times, while talking on the phone with his father. There is video showing clearly that Usaama Rahim continued to ignore the warning of a police officer and an FBI Agent, and proceeded toward them with a large, military knife. Will the brother be charged for his false and dangerous statement, or will he be allowed to get away with having lied so recklessly?

It's important not to continue to let people get away with making false statements about the behavior of the police. .
