

What the Media Won't Tell You About USAID Corruption

By Armando Simón

"How many countries tax their citizens and send the money to the USA?"

–Elon Musk

In [two](#) earlier [pieces](#), I detailed all the countries that received millions, or billions, of dollars through the government agency of USAID which distributed "foreign aid," but I had no means to identify the specific programs that it went to. However, foreign aid is when poor people in rich countries are forced to give their money to rich people in poor countries. Foreign aid [does](#) not always [result](#) in happy endings.

When Elon Musk took over Twitter, he ripped apart the curtain of censorship that we all knew was there, but which liberals labeled a conspiracy theory. Reputedly, he did away with 80% of the task force without any loss of efficiency; reputedly also, he hired 90% of women and staffed Twitter (now X) with 90% men. Very curious if true.

Now, he set sights on USAID with its 10,000 employees and, once again, the curtain has been ripped out to reveal enormous corruption of an ideological nature, confirming once again what we all knew but were condemned for thinking for ourselves. His six young geniuses, as they are referred to, have uncovered a plethora of utter corruption carried out by liberal employees with degrees in Gender Studies and Gay Studies. I will list some of what they have uncovered so far since there is a good possibility you may not be aware of them:

\$330 million to help Afghans grow crops.

\$200 million to build an unfinished dam in Afghanistan.

\$27 million to the George Soros prosecution fund.

\$1.1 million to an Armenian LGBT group.

\$1.3 million to Arab and Jewish photographers.

\$1.5 million to "rebuild" the Cuban media ecosystem.

\$1.5 million for "art for inclusion of people with disabilities."

\$2 million to promote "LGBT equality through entrepreneurship ... in developing Latin American countries."

\$2.1 million so the BBC can promote diversity in Libyan society.

\$2.3 million for “artisanal and small-scale gold mining” in the Amazon.

\$3.9 million to LGBT causes in the Western Balkans.

\$5.5 million to LGBT in Uganda (homosexuality carries a death sentence in Uganda).

\$6 million to promote homosexuality around the world.

\$8.3 million for USAID DEI propaganda.

More money (\$16.8 million) for promoting “inclusion” in Vietnam.

\$200 million to China for coronavirus research. Part of it went toward military research on bioweapons.

I don't [have](#) specifics yet, but [there](#) is some information USAID has been involved in internal politics and in financing some of the [cogs](#) in the media hivemind in order to crank out propaganda.

There are several related things pertaining to the above. First, is the reaction of the USAID employees. In the past, they [have](#) refused to turn over documents to the US Congress. Presently, they reacted to the [DOGE](#) investigation with outrage and obstructionism; they seemed to think that the agency was their private domain, answerable to no one.

The second is the media hivemind's reaction to the revelations—there hasn't been any. This follows the usual pattern of [news](#) blackout (i.e., censorship) of facts that throw a light on the insane fanaticism of liberals (e.g., violence by transgenders, BLM's Marxist roots and its corruption, George Soros' nefarious activities, the Hunter laptop, the mutilation of children in the transgender cult, etc.). I am not being quite accurate though when I state there has been no reaction. Although the media hivemind has suppressed details of the corruption, it has [provided](#) a

smokescreen of defending [USAID](#) as an immaculate, benevolent organization saving lives worldwide (as I [predicted](#) it would). [While](#) sanitizing [USAID](#) it has resumed demonizing [Elon Musk](#), and it has portrayed his protégé as violent lunatics (see cartoons).

It would be a shame if the above information were to spread.

Third and last is the apparent obsession with funding sexual perversions abroad. As I [have](#) pointed out elsewhere—and this is not meant as an insult per se, but rather descriptive and with full documentation—the Democrat Party is the party of sexual perverts. Not only have many individual Democrats been found with [child](#) pornography (one [such](#) pervert who possessed kiddie porn repeatedly portrayed Republicans as deviants, a perfect example of projection), but as a whole Democrats have advocated and justified drag queens dancing in front of children, teachers promoting homosexuality and trannies in classrooms, inserted homosexual characters in movies, flew Pride flags in government buildings, and had both fags and trannies in the White House during the Biden Administration.
