

William Schabas Resigns

[Here.](#)

Netanyahu is right – the report on Gaza prepared by Schamas, under the direction of Schamas, molded by Schamas (there were only three people on the U.N.-appointed commission, and Schamas was the head of it who had a hand in selecting the others) will be as biased as Schamas himself.. It is possible, it is even likely, that he has resigned now in order to get the report he written, and to be presented in March, as somehow unrelated to him, an unbiased work by disinterested people whose names don't matter, who have vanished into air, thin air.
